- Let your child start from simple concepts of big and small to equations and multiplication, one step at a time.
- Activity Books are filled with fun and interesting exercises to test and reinforce the concepts learned from the books.
- The LMA App provides hours of fun activities to practice what has been learned.
- Albert and Annie's Math Kit includes: Magic Numbers, Annie's Practice Cards and a Multiplication Tile Set - all designed for fun, play and practice.
- An Achievement Chart with star stickers helps you to record and reward your child's progress.
- The Parent's Guide and Educator's Guide explains the program and how to make best use of the components.
- Record sentences, names of places, objects, etc through our Walter™ Sticker Book.
